DIARY NOTES

DD/S

18 August 1967

Attire of Employees: At the Executive Committee meeting a comment was made about the inappropriate attire of men and women in the Agency but more particularly some of the younger employees. Word was to be passed through the staff meeting medium that employees were expected to dress in a reasonable fashion, that this was a business operation and supervisors were to speak to employees considered to be in inappropriate dress. If the individual was not cooperative he was to be referred to the Director of Personnel.
